Professional Objective

Proactive and self-taught professional with experience in a manufacturing and industrial process environment, seeking to transition into the Information Technology field. Currently a Software Engineering student, with a focus on developing programming and problem-solving skills. I am looking for an internship or junior developer role to apply my knowledge and grow in a career I am passionate about and dedicated to in my spare time.

Education

- **Software Engineering (2nd Semester)**
 - Estácio de Sá University
 - Expected Completion: January 2028

Professional Experience

- **Extrusion Machine Operator**
 - **Steck** - Jacareí, SP
 - March 2024 – Present
 - Operated and monitored extrusion machinery, ensuring product quality and production efficiency.
 - Identified and resolved operational issues to optimize workflow.
 - Collaborated with the team to maintain a safe and productive work environment.
 - Performed maintenance and repairs on the machine when necessary.

Skills

- **Programming Languages:** Python, C++, JavaScript
- **Technologies & Tools:** Git, SQL, Docker, Linux, APIs
- **Soft Skills:** Self-taught, Problem-Solving, Teamwork, Process-Oriented, Adaptability.

Languages

- **English:** Intermediate
- **Arabic:** Basic
- **German:** Basic

Personal Projects

- **Project Portfolio:** <https://felipehl-create.github.io/portfolio-felipe>
 - This portfolio demonstrates the practical application of my skills in programming projects, including web development and Python scripting.
